Introducing new SCOTT® SLIMROLL* Towel

Benefits

Superior Cost in use

- ▶ Controlled 25cm sheet length reduces usage and waste
- ▶ Automatic transfer stub roll feature helps ensure 100% use of towel to prevent run outs and reduce waste
- ▶ Dispenser offers the choice of push button lock for accessibility or key lockable to deter pilferage and misuse

Easier Maintenance

- ▶ High capacity dispenser can hold over 700 towels for less servicing
- ▶ Stub roll feature means the dispenser can be topped up for lower maintenance and reduced risk of runouts

Improved Hygiene and Image

- ▶ Compact dispensers can be placed where they're needed to encourage hand washing
- ▶ Only touch the towel being used for maximum hygiene
- ▶ Dispenser keeps towel clean and hygienic prior to use

User Satisfaction and Image

- ▶ High capacity dispenser is up to 50% smaller than other roll towel dispensers
- ▶ AIRFLEX* Fabric provides superior strength and absorbency for superior hand drying performance
- ▶ Stylish compact dispenser enhances your facilities appearance

Conventional hand towels have tightly compressed fibres which cause water to sit on top of the towel, slowing absorbency. SCOTT® towels with AIRFLEX* Fabric contain absorbency cells that soak up water fast, for superior hand drying performance.

Improved Sustainability

- **Product Design** – AIRFLEX* Fabric reduces the amount of fibre required to deliver the same hand drying performance
- **Raw Materials** - SCOTT® SLIMROLL* Towel is FSC mixed source certified with more than 50% recycled fibre
- **Transport** – each compact case contains 4176 towels, meaning more hand dries from every delivery and less trucks on our roads
- **Use** – User preferred AIRFLEX* Fabric delivers the same performance with less grams of fibre per hand dry
- **Final Disposal** – no inner labels means less packaging waste versus folded towels

Reduce Today, Respect Tomorrow* is the KIMBERLY-CLARK PROFESSIONAL* approach to sustainability. It has led us to focus on reducing consumption at every stage of the product lifecycle - from design and manufacture to distribution and disposal.
