

KIMTECH* AVIATION WIPES

CONFIDENTIAL

Product code: 28645

Product name: KIMTECH* Aviation Wipes – C3 Cleaning Wipes

Description:

Kimtech* C3 Cleaning Wipes for the Wettask refillable wiping system have been specifically designed for general cleaning tasks in the aviation industry. The wipes are compatible with detergents, solvents, dilute acids and bases; they are also low linting, silicone free and antistatic in use. The wipes are made from a blend of soft absorbent cellulose and strong polypropylene fibres and contain no glues, adhesives or binders. The cellulose component allows the wipes to absorb water quickly and effectively, while the tear-resistant polypropylene fabric soaks up more than its own weight in oil and grease. The result is a durable and absorbent wiper, which can be used wet or dry.

The wipes meet the requirements of AMS 3819C and BMS 15-5F specifications for wipers approved for use on Airbus and Boeing aircraft.

Product details:

Product format	Colour	Product size	Case count
Wettask roll	White	30.4cm x 31.7cm	60 wipes per roll 6 rolls per case

Product properties:

Wipes property	Target	Test method
Basis weight (gsm)	78	STM 2603
Water absorbency capacity (g/m ²)	429	STM 2401
Water absorbency capacity (%)	550	STM 2620
Water absorbency rate (sec)	<1	STM 2404
Oil absorbency capacity (g/m ²)	281	STM 2401
Oil absorbency capacity (%)	360	STM 2401
Oil absorbency rate (sec)	7	STM 2404
Wet taber (cycles)	31	STM 2206
CD wet grab tensile (N)	36	STM 5668
