

KIMTECH* AVIATION WIPES

CONFIDENTIAL

Product codes: 28643, 28644

Product name: KIMTECH* Aviation Wipes – P2 Surface Preparation Wipes

Description:

Kimtech* P2 Surface Preparation Wipes have been specifically designed for critical surface preparation tasks in the aviation industry.

The wipes are compatible with solvents commonly used in the aviation as well as detergents, dilute acids and bases; they are very low linting, silicone free and antistatic in use. The wipes are made from a spunlace blend of cellulose and polyester fibres and contain no glues, adhesives or binders.

The wipes meet the requirements of AMS 3819C and BMS 15-5F specifications for wipers approved for use on Airbus and Boeing aircraft.

Product details:

Product code	Product format	Colour	Product size	Case count
28643	Pop-up	White	30.4cm x 30.4cm	200 wipes per box 4 boxes per case
28644	Quarter fold	White	30.0cm x 30.4cm	60 wipes per pack 10 packs per case

Product properties:

Wipes property	Target	Test method
Basis weight (gsm)	68	STM 2603
Water absorbency capacity (%)	400	STM 2620
